12/10/72 Today's Maxine Cheshire column suggests an answer to the question that perplexed me when FU was out and I went to Bella Abzug's Washington office at the suggestion of her NYC office. I saw Ether Newberg, who fobbed me off and kept me from seeing Abzug. This column identifies her as a former Kennedy "Boiler Room Girl" and as at Chappaquiddick. With the Kennedy position on assassinations and her possible indoctrination, that could have been enough. Her Chap. past is said to have been EMK's reason for not taking her on as a top office assistant to counter male chauvenism charges. HW
